PROJECT  
SHEET

# Origami Crane

## SUPPLIES

- Square sheet of Origami Paper or similar weight paper.

## INSTRUCTIONS

1. Fold the paper in half, diagonally, forming a triangle.

2. Fold triangle in half along the dotted line as indicated.

3. Take the top left point and open just the top flap towards the right.

4. Flatten the flap and you will have a square on top.

5. Turn over and repeat on the other side. You will end up with a layered square.

## INSTRUCTIONS CONTINUED

6. Turn the square on point with the open ends on the bottom. Fold in the side points to the center. Fold the top point down. Crease well and unfold. Lift the top layer from the bottom point up, using the crease lines to help form the shape.

7. Flatten, forming a long diamond shape. Turn it over and repeat step 6 on the other side and flatten.

8. Fold the two side points into the center. Turn over and fold the side points to the center.

9. On the top layer, bring the two sides together. On the bottom, do the same.

10. Fold the right bottom point up to make the tail. This is called a reverse fold.

11. Fold up the left bottom point for the neck. Do a small reverse fold where shown to make the head.

12. Pull the 2 points at the top apart to form the wings. On the bottom, there is a tiny hole. You can blow a puff of air into the hole to make the body larer.
