

**INSTRUCTIONS CONTINUED**

**FOLDED CORNER  
 BOOKMARK**

**SUPPLIES**

- 6 in. x 6 in. Red Paper\*

*\*You can use cardstock but thinner copy weight or construction paper will be easier to work with*

**INSTRUCTIONS**

1. Take the red 6" x 6" paper and turn it on point.

2. Fold the top point down to the bottom point, forming a triangle. Crease well.

3. Take the bottom point and fold up to the center fold. Crease well.

4. Take the right side point and fold down to the bottom point. Crease well.

5. Tuck the point into the pocket.

6. Repeat steps 4 and 5 with the left side point. Now, you have the book mark base.

7. For this book mark, we are making it into a heart. Curve cut the bottom square side on each side to the center point, shaping it into a heart.

8. Flip over and tuck onto a page to use as a bookmark. You can write a message or add stickers, etc. to embellish. Just make sure it won't rub off onto the book's pages!

9. You can also fill the pocket with a treat first if you plan to give them away.
