

FLOWER TUBE HOLDER

SUPPLIES

- Aqua Tube (from the floral dept.)
- 3.25" x 3.25" Printed Paper
- 3.5" x 12" Coordinating Color Cardstock
- 3.5" x 1/2" Coordinating paper for strip accent
- Optional - ribbon, stickers, cut-outs for embellishments
- Double Stick Tape
- Pen or flower for tube

TOOLS

- Pencil for tracing
- Scissors
- Optional - Paper Scoring Board

INSTRUCTIONS

1. Take the 12 in. strip of cardstock and going across lengthwise, measure and mark these points: 2.5 in., 6 in. and 9.5 in..

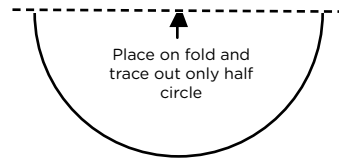

2. Use a paper scoring board or just fold at these points so there are 4 sections left to right. Crease well.

3. Take the 3.25 in. x 3.25 in. printed paper square and center on one of the 3.5 in. sections. Tape down. This will be the front panel of the holder.

Template for Opening

INSTRUCTIONS CONTINUED

4. Fold the whole strip in half at the center 6 in. fold. Cut out the half circle template. Place the dotted edge on the fold and trace.

5. With the cardstock still folded in half, cut out the half circle through all thicknesses. This will create a circle hole to place the tube in.

6. Fold the four panels to form a triangle, with the two 2.5 in. sections overlapping each other. Tape the 2.5 in. panels together.

7. Remove the rubber cap from the Aqua tube. Stand the aqua tube up in the holder by placing it inside the cutout circle. Add a bit of tape on the bottom if needed to keep tube upright.

8. You can add embellishments to the front panel like another strip of paper, ribbon, stickers, cutouts, etc. Place a pen or flower in the tube to finish. Give as a gift or use on your desk.
