DIRECTIONS

Take the two 2.5 in. x 7 in. pieces of cardstock and score down the middle vertically at the 3.5 in. point. Take one piece and cut along the scored line to create two pieces.

NOTE: Using two separate pieces for the inside of the bookmark allows it to fold and close easier.

On the scored 2.5 in. x 7 in. piece, place two magnet strips on each scored side.

NOTE: If cardstock is printed, then place on the “wrong side”. Add double stick tape all around the piece. Matching the outer edges and sandwiching the magnet strips, adhere the two smaller pieces on top.

OPTIONAL: Corner round the four corners.

Fold and close the piece, the magnets will bond. Add the stamped and colored image to the outer side with double stick tape.

Use as a book marker for books or your planner.
