

CHENILLE STEM MONKEY

by Ella-Grace "Gracie" Zimdahl of Hawaii Tech Academy

SUPPLIES & TOOLS

- 13 qty. Brown Chenille Stems
#77674085
- 1 qty. Beige Chenille Stems
#77674416
- Pencil or similar
- Scissors

Optional -

- 2 qty. Moving eyes
- Glue for eyes

NOTE: The 13 brown chenille stems used will be for:

- Head - 5
- Ears - 2
- Body - 3
- Feet - 2
- Tail - 1

INSTRUCTIONS

1. Grab a pencil and one brown pipe cleaner, wrap the pipe cleaner around the pencil till there is no more to wrap, then grab another dark brown pipe cleaner and wrap it around the springed pipe cleaner the other way. Keep doing that with 3 more pipe cleaners
2. Wrap a pipe cleaner around the pencil till there is no more left, then grab another pipe cleaner and wrap it around the springed pipe cleaner- going the same way. Do that one more time, then using any extra pipe cleaner from the head and/or the body weave the head onto the body.
3. Take another dark brown pipe cleaner and roll it into a spiral, don't roll it all the way- only 8 times. Then wear it onto the head (top left corner). Use another dark brown pipe cleaner and do the same thing but for the other side (right side).
4. With the body made, it's time to make the legs. Take the end of The pipe cleaner and make a small loop at the end, After making the loop stick the non-looped end of the pipe cleaner into the body near where you want the first foot leave about 2 cm from the loop and the body, then weave the non-looped side of the pipe cleaner into the body and back down. Then do the same for the other foot (using the same pipe cleaner). Fold a loop in the middle of the pipe cleaner where you want the foot to be. Then weave the extra pipe cleaner into the body. Do the same thing for the back legs.
5. Grab one pipe cleaner and fold one end to about the middle and test that will be the tail. Then weave the non-twisted side of the pipe cleaner into the back of the body will there is no more.
6. Grab a Light brown pipe cleaner and roll it like the ears, then weave it into the face to make the muzzle.
7. Optional - Get 2 googly eyes and glue them onto the monkey's face.

Now you have a monkey friend! Enjoy :)
