The Grad sample used paper Mai Tai #3003 5951 for the shirt and  
Background PYO Gradient 501 #3003 4119 for the background mat.

## Directions:

**Aloha Shirts -** Follow the folding instructions to make the Aloha Shirt. Position two teeny buttons below the collar on the front of the shirt. Glue in place. Optional: You can cut out a small pocket shape from the printed paper and glue on the front of the shirt. Set shirt aside.

**Dad Card -** Fold the cardstock in half to make a 5.5" x 5.5" square card. Take a 5" x 2" strip of washi paper and tear along the length of one side. Align the straight edge to the fold of the card and glue washi paper in place. Tear a few smaller strips and glue to the front of the card. Place the Aloha shirt on the front of the card at an angle. Adhere shirt to the card with double stick tape.

On the inside of the card, you can add a strip of the printed paper you used for the shirt. Add strips of washi paper and write "Happy Father's Day!"

**Grad Card -** Fold the cardstock in half to make a 5.5" x 8.5" card. Center the 8" x 5" printed paper on the front of the card. Adhere to the card with double stick tape. Next, center both the 4.5" x 5.5" and 1.75" x 4.5" cardstock mats on top. The smaller Mat should be on the bottom and leave a space between the mats as in the sample. Adhere mats to card.

With the alphabet stamps, stamp emboss the word "Congrats!" onto the 1.25" x 4" printed paper. Center onto the smaller cardstock mat and adhere.

Take about 12" of mini fern or other garland and drape around shirt like a lei. Position shirt onto the top cardstock mat at an angle and adhere. Spot glue the lei to hold it down if necessary.

# Folding Instructions for the Aloha Shirt:

Not for re-sale. Property of Ben Franklin Crafts ©2005

Note: A larger shirt can be made by using 8.5" x 11" paper and adjusting your folds.

**1**  
Take the 6" x 10" printed paper and place with the printed side down. Fold in half. Unfold.

**2**  
Fold each side edge to the center fold crease. Crease well. Unfold.

**3**  
On the bottom edge, fold each corner flap to the secondary crease line. Two triangles will form.

**4**  
Fold bottom edge up at the top edge of the triangles. Crease well. Unfold.

**5**  
Fold side edges back to the center fold crease.

**6**  
Fold center point A diagonally to the left side edge. Crease well. The bottom edge will start to lift when you do this.

**7**  
Fold Center point B diagonally to the right side edge. Crease well. The bottom edge will start to lift when you do this.

**8**  
Fold bottom edge up to meet the edges of the corner flaps and flatten. Now your shirt sleeves are done.

**9**  
Turn shirt over. Fold top edge down 3/8" and crease well.

**10**  
Fold edge down one more time. Crease well. Turn shirt over again.

**11**  
Fold the side edges in so that the corners meet at the center about 3/8" down from the top edge. Crease well. This is your shirt collar.

**12**  
Fold the bottom edge up and tuck under the collar. Crease the bottom fold and flatten. Now your shirt is done!
