3. Rotate your 4 in. w x 11 in. h cardstock to landscape, or horizontal orientation, and score the card at 3 in., 5 in., and 8 in. marks.

 NOTE: If the printed cardstock has words, rotate the piece with the bottom edge closest to Segment D below.

5. Center the printed cardstock Piece B to Segment B, using double-stick tape.  
 NOTE: If the printed cardstock has words, rotate to face the opposite direction, with the bottom edge closest to Segment C above.
6. Place 1-2 strips of double stick tape to the back of the calendar, remove the adhesive backing, and center the calendar onto Printed Piece B, with the bottom edge of the calendar closest to Segment C.
7. Place a strip of double-stick tape horizontally centered of Segment C. Do not remove the backing of the double-stick tape.
8. Fold to calendar to include with a greeting card, or peel the backing of the double-stick tape in Segment C, and bring in Segment D to create a pop-up "tent" to display calendar on your desktop.
