

EZ Treat Bag Instructions Cont...

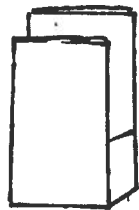

Unfold. Repeat steps with the top half of the paper, aligning crease line B with creased edges C & D.

Fold the left and right flaps in, folding on the creased angled lines. The bag should naturally start to form.

With flaps folded in on one side, bag looks like this.

Finished bag.

EZ Treat Bag

Supplies:

8-1/2" x 11" Paper

Ruler

Pencil

1/8" Hole Punch or stapler

Ribbon

Directions:

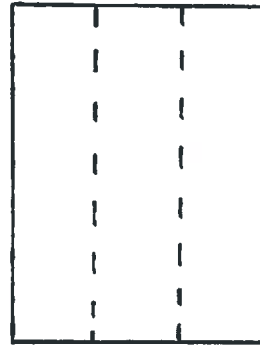

Follow the folding diagrams to make a paper party bag. Fill the bag with treats.

There are different options for closing the bag. Fold over the top edge of the bag and:

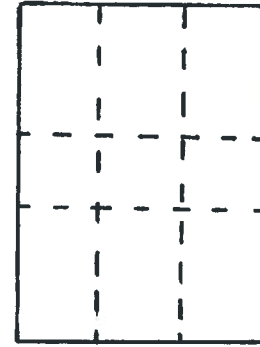

- Staple the bag closed. Make a bow and adhere over the staple. Or,
- Punch two holes in the bag and thread ribbon through. Tie ends of ribbon into a bow. Or,
- Seal the fold with a sticker.

Note: After folding one paper bag, you can determine what area the front of the bag will be. Stamp a design or use computer clip art to personalize your bag. Use this as a template and make copies if you need to fold a lot of bags.

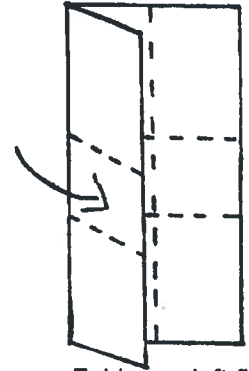

EZ Treat Bag diagrams & instructions:

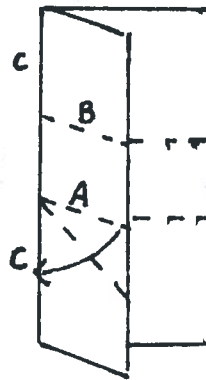

Fold paper lengthwise into thirds. Crease well and unfold.

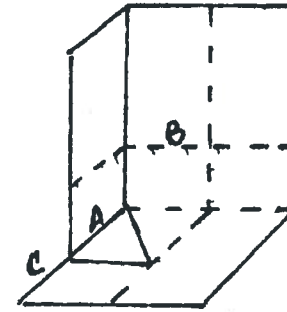

Use the ruler and measure down 4-1/2" from the top edge and fold. Crease well and unfold. Measure 4-1/2" up from the bottom edge and fold. Crease well and unfold.

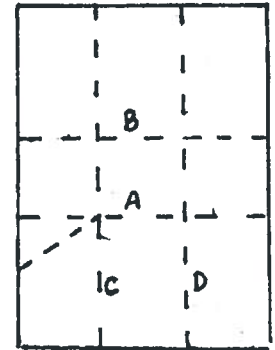

Fold over left flap.

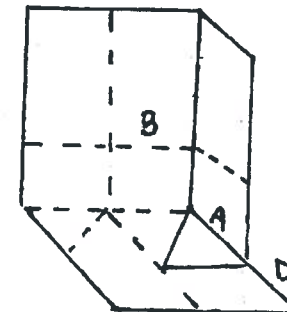

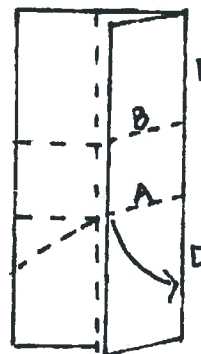

Align crease A to creased edge C. You will create an angled crease line. Crease Well.

The top half of the paper will tend to stand up perpendicularly

Unfold.

On the right side flap, align crease A with the creased edge D, creating an angled creased line. Crease well. Again, the top half of the paper will tend to stand up perpendicularly.
